

Valentine's Day Social Story

Valentine's Day is a holiday in February.

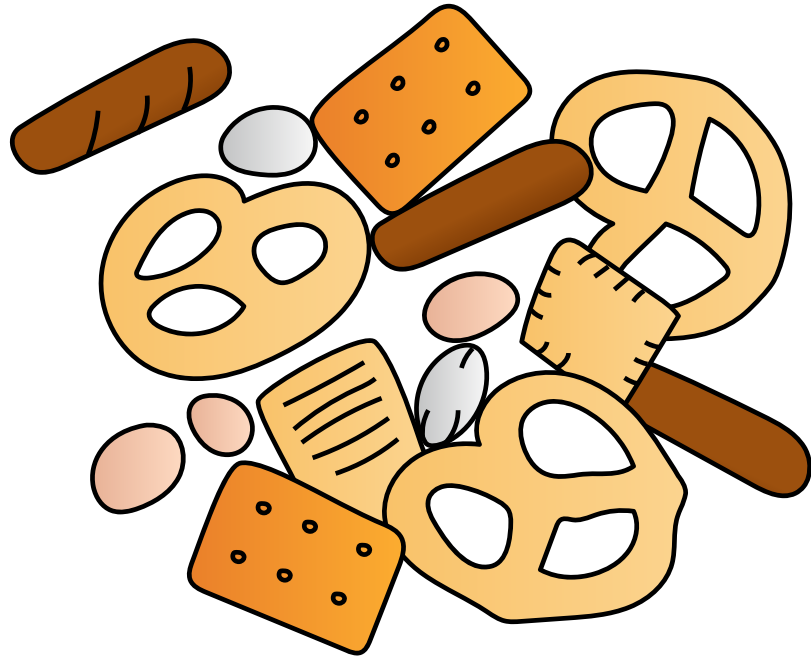

On Valentine's Day people often celebrate with their family, friends and loved ones.

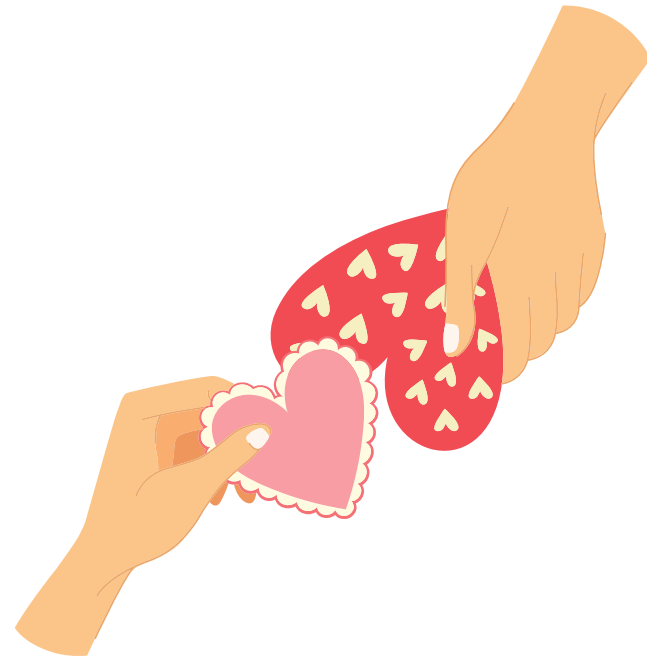

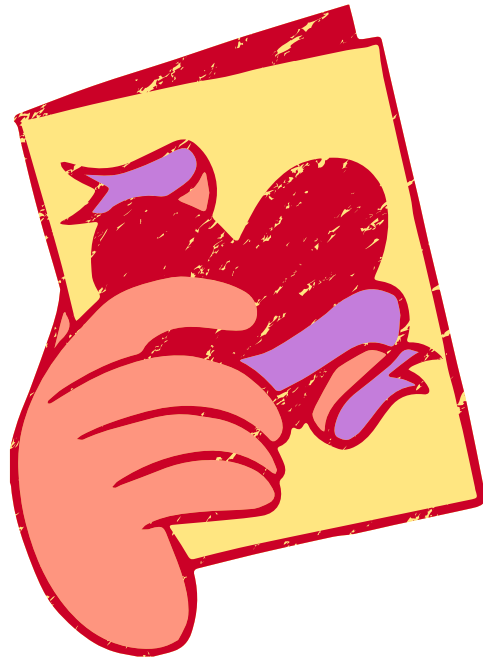

On Valentine's Day, my class might have a party. There might be games, snacks, crafts to do, and Valentine cards.

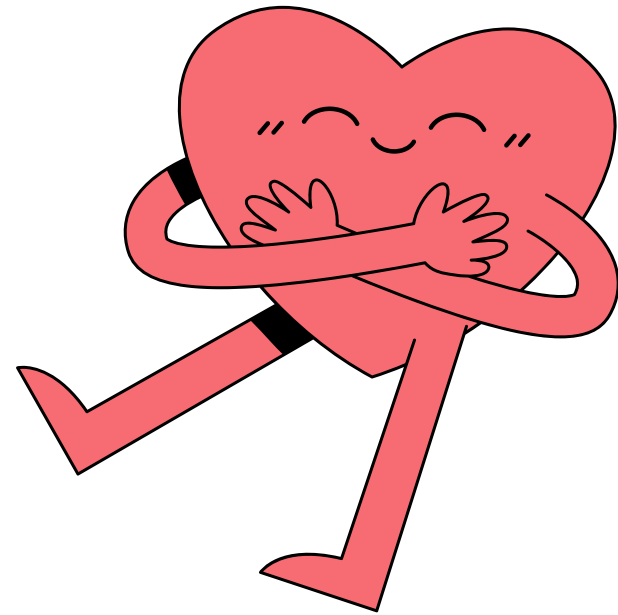

My teacher or a parent will show me what to do and can help me if I need it. I can help by listening to the directions and having a calm body.

If we have snacks, I will try to sit at the table or desk with the other kids. I can try the snack, and it is okay if I don't want it. I can say, "No, thank you" if I don't want it.

On Valentine's Day I can give other kids cards and they may give me cards as well.

**It makes others happy to get cards on
Valentine's Day.**

**If someone gives me a card I can say
“Thank you”.**

Valentine's Day will be fun!
